

To the Voters of Anne Arundel County.  
I offer myself as an ELECTOR OF THE SENATE, at the Election to be held on the First Monday in September next, and respectfully solicit your suffrages.  
Your obedient servant,  
WM. H. MARRIOTT.  
Feb. 22d, 1825.

To the Independent Voters of Anne Arundel County.  
Fellow-Citizens,  
I offer myself to your consideration as a candidate for the office of Senatorial Elector, for our county, at the approaching election. I deem it unnecessary to say much on this occasion. I have been long known to those of you, who like myself, are well stricken in years, and those who have become voters since my head has whitened, and ask their fathers who and what I am. But I pledge my word and honour, which I trust have never yet been doubted, that, if elected, no party bias shall influence my vote. The only inquiry with me, as to any person who may be put in nomination, will be as to his integrity, capacity, and devotedness to our free and happy government. I will only further remark, that I am brought forward by no Caucus or secret association, my pretensions are submitted entirely to the judgment of my Fellow-Citizens. Should they sanction them, I shall feel grateful for the honour done me, if otherwise, no one can deprive me of the consoling reflection, that Anne Arundel county has been better qualified to serve her on so important an occasion than herself.  
HORATIO RIDGELY.  
April 6th, 1826.

**MODE OF DRAWING.**  
The numbers will be put into one wheel as usual, and in the other wheel will be put the prices above the denomination of Four Dollars, and the drawing to proceed in the usual manner. The 20,000 prizes of \$1 each will be awarded to the odd or even numbers in the Lottery, (as the case may be,) dependent on the drawing of the capital prize of \$30,000, that is to say, if the 30,000 dollar prize should come out to an odd number, then every odd number in the scheme, will be entitled to a four dollar prize; if the 30,000 dollar prize should come out to an even number, then all the even numbers in the scheme will be entitled to a 4 dollar prize.  
The odd numbers are those ending with 1, 3, 5, 7, or 9.  
The even numbers are those ending with 2, 4, 6, 8, or 0.  
This mode of drawing not only enables the Commissioners to complete the whole Lottery in one drawing, but has the great advantage of distributing the small prizes regularly to every alternate number in the scheme, so that the holder of two tickets or two shares of tickets (one odd and one even number) will be certain of obtaining at least one prize, and in the same ratio for any greater quantity.  
A ticket drawing a superior prize in this scheme is not restricted from drawing an inferior one also—many tickets therefore, will necessarily obtain two prizes each.
